

CONTENDER™ CONSOLE

CONSOLE AND TECHNICAL FURNITURE SOLUTIONS ENGINEERED

for the unique requirements of 24/7 Command Centers and Mission Critical Operations

The Contender Series is a fixed worksurface height console designed for the rigors of a mission critical environment. Offered with a wide range of colors and accessory options, the Contender Series consoles combine the highest levels of functionality and design aesthetics. These Mission critical console solutions are engineered with the specific requirements of your operators in mind.

All of Constant Technologies' console systems are designed for the unique needs of a command and control environment. Purpose built, our ergonomically designed consoles efficiently accommodate all operator equipment and cabling. We also understand that change is inevitable, so we design our modular consoles for future equipment changes and reconfigurations of your world-class mission critical facility.

SUPERIOR FLEXIBILITY

Each operations center is unique, and the Contender Console can be customized to your exact requirements. The team at Constant can help you to analyze your needs and develop the perfect solution for your operators, combining durability and flexibility.

The Contender Console has many standard options and accessories as well as custom options, widths, depths, and heights making it adaptable and customizable to your environment.

KEY BENEFITS

- Cable Management
- Superior Aesthetics
- 24/7 Durability
- Internal Cooling
- CPU/Equipment Enclosures

10 INTEGRATED LOCKS ⁺

12 SLIDE-OUT PC SHELVES ⁺

14 LOUVERED VENT GRILLS

11 WEDGES FOR CURVED CONFIGURATIONS

13 CHOICE OF BEAM OR SLATWALL MOUNTING

15 INTERNAL EXHAUST FANS ⁺

⁺ OPTIONAL ITEMS
[±] CONFIGURABLE ITEMS

FUTURE-PROOF YOUR OPERATIONS

When designing the Contender, the engineers at Constant carefully considered cable management, equipment access and power/data requirements. The result is a console that can be modified for future growth, allowing your console to adapt with your operations.

- Modular components can be reconfigured to allow for future expansions
- CNC (Computer Numerical Control) ensures future duplicate consoles will accurately match existing build
- Comprehensive warranty ensures consoles will be free of defects for the lifetime of their use

16 CABLE BRUSH FOR WORKSURFACE CABLING

18 INTEGRATED POWER STRIPS

20 EXTENDED REAR BASE SPLINE ⁺⁺

17 WIRE TRAYS FOR ADDITIONAL CABLE MANAGEMENT

19 INTEGRATED SIDE PANEL W/ MOUNTING PROVISIONS
FOR QUAD BOX & CABLE MANAGEMENT

21 CONNECTIVITY INTERFACE PANEL ⁺⁺

⁺ OPTIONAL ITEMS
⁺⁺ CONFIGURABLE ITEMS

THE INNER WORKINGS OF THE CONTENDER

- Consoles are provided with provisions for electrical box mounting locations
- An optional rear base spline provides extra base depth for larger equipment and additional cable management
- Custom configurable Connectivity Interface Panels also provide an option for easy access to all low voltage connections by extending connectivity up from below to directly below the worksurface
- Continuous raceways allow for cabling to run between users

THOSE WHO TRUST CONSTANT

COLORS AND FINISHES

Vertical and horizontal surfaces can be specified from a wide range of laminates. We are able to utilize a variety of vendors including Wilsonart, Formica, Nevamar and Pionite.

For metal components, there are many standard powder coat finishes available to blend with laminate selection. The standard finish for aluminum components is clear anodized.

Samples can be furnished upon request.

GSA SCHEDULE HOLDER

Constant Technologies offers our valued government clients the best possible pricing on console systems designed, fabricated and assembled in the USA for flexibility, durability and aesthetics.

UNMATCHED EXPERIENCE

Constant Technologies provides technology furniture and audio/visual solutions for command center environments in the public and private sectors. With decades of experience and installations around the world, we understand the rigorous requirements of an operations center.

- AIA Certified Design Staff
- CTS-D Accredited A/V Designers
- Project Managers
