

FREEDOM CONSOLE

CONSOLE AND TECHNICAL FURNITURE SOLUTIONS

for the fast pace of 24/7 Command Centers and Mission Critical Operations Centers.

Constant Technologies' console systems are designed for the functionality necessary in a command and control environment. Our ergonomically designed consoles efficiently accommodate all your operator equipment and cabling. We also understand that change is inevitable, so we design our modular consoles for future equipment changes and reconfigurations of your mission critical facility.

The Freedom Console is Constant's adjustable height worksurface console. Offered in a wide range of colors and accessory options, Constant's consoles are a key component of your mission critical facility.

FEATURES & OPTIONS OF THE FREEDOM

- | | | | | | |
|---|---|---|--|---|---|
| 1 | MOTORIZED ADJUSTABLE HEIGHT WORKSURFACE | 4 | MOBILE STORAGE PEDESTALS ⁺⁺ | 7 | ADJUSTABLE MONITOR ARMS, AVAILABLE IN MANY SIZES AND CONFIGURATIONS ⁺⁺ |
| 2 | IMPACT-RESISTANT URETHANE EDGING | 5 | TASK LIGHTING ⁺ | 8 | VERTICAL CABLE MANAGEMENT |
| 3 | FULL DEPTH WORKSURFACE | 6 | CHOICE OF BEAM OR SLATWALL MOUNTING | 9 | WORKSURFACE LEVEL CONVENIENCE JACK ⁺⁺ |

⁺ OPTIONAL ITEMS
⁺⁺ CONFIGURABLE ITEMS

SUPERIOR FLEXIBILITY

Each operations center is unique, and the Freedom Console can be customized to your exact requirements. The team at Constant can help you to analyze your needs and develop the perfect solution for your operators, combining durability and flexibility.

The Freedom Console has many standard options and accessories as well as custom options, widths, depths, and heights making it adaptable and customizable to your environment.

KEY BENEFITS

- Cable Management
- Superior Aesthetics
- 24/7 Durability
- Internal Cooling
- CPU/Equipment Enclosures

10 REMOVABLE BI-FOLD DOORS

11 INTEGRATED LOCKS ⁺

12 WEDGES FOR CURVED CONFIGURATIONS

13 LOUVERED VENT GRILLS

14 SLIDE-OUT PC SHELVES ⁺

15 CHOICE OF BEAM OR SLATWALL MOUNTING

16 INTEGRATED UP/DOWN SWITCH FLUSH MOUNTED IN WORKSURFACE. HEIGHT RANGE FROM 30" TO 54"

17 VERTICAL CABLE MANAGEMENT

18 INTERNAL EXHAUST FANS ⁺

⁺ OPTIONAL ITEMS
[±] CONFIGURABLE ITEMS

FUTURE-PROOF YOUR OPERATIONS

When designing the Freedom, the engineers at Constant carefully considered cable management, equipment access and power/data requirements. The result is a console that can be modified for future growth, allowing your console to adapt with your operations.

- Modular components can be reconfigured to allow for future expansions
- CNC (Computer Numerical Control) ensures future duplicate consoles will accurately match existing build
- Comprehensive warranty ensures consoles will be free of defects for the lifetime of their use

19 CABLE BRUSH FOR WORKSURFACE CABLING

21 INTEGRATED POWER STRIPS

23 EXTENDED REAR BASE SPLINE ⁺⁺

20 WIRE TRAYS FOR ADDITIONAL CABLE MANAGEMENT

22 REMOVABLE QUAD BOX MOUNTING BRACKET

24 CONNECTIVITY INTERFACE PANEL ⁺⁺

⁺ OPTIONAL ITEMS
⁺⁺ CONFIGURABLE ITEMS

THE INNER WORKINGS OF THE FREEDOM

- Consoles are provided with provisions for electrical box mounting locations
- An optional rear base spline provides extra base depth for larger equipment and additional cable management
- Custom configurable Connectivity Interface Panels also provide an option for easy access to all low voltage connections by extending connectivity up from below to directly below the worksurface
- Continuous raceways allow for cabling to run between users

THOSE WHO TRUST CONSTANT

UNMATCHED EXPERIENCE

Constant Technologies provides technology furniture and audio/visual solutions for command center environments in the public and private sectors. With decades of experience and installations around the world, we understand the rigorous requirements of an operations center.

- AIA Certified Design Staff
- CTS-D Accredited A/V Designers
- Project Managers
- Programming/Software Engineers
- Installation Technicians

GSA SCHEDULE HOLDER

Constant Technologies offers our valued government clients best possible pricing on console systems designed, fabricated and assembled in the USA for flexibility, durability and aesthetics.

COLORS AND FINISHES

Vertical and horizontal surfaces can be specified from a wide range of laminates. We are able to utilize a variety of vendors including Wilsonart, Formica, Nevamar and Pionite.

For metal components, there are many standard powder coat finishes available to blend with laminate selection. The standard finish for aluminum components is clear anodized.

Samples can be furnished upon request.
